Chairman’s Report

When we started we intended to be a non-stuffy organisation and I hope we have kept it up. This is as close as it gets to an annual report. We prefer the deeds of the clubs and groups we support to tell our story in the hope it will allow us to do more next year and encourage others.

This year we have processed a total of 103 Awards and our combined investment of £541,548 will benefit clubs and charitable organisations, big and small, across all parts of Scotland.

We remain indebted to the Scottish FA for their continued support. Without them we would cease to exist as a helpful body assisting all levels of the game. We hope our efforts feed back into the football development chain. If nothing else the youngsters that participate gain lifetime changing habits.

Some highlights from the year include our support for the Scottish Women’s National squad in partnership with sportscotland and SSE. Qualification for Euro 2017 was a fantastic achievement for Anna Signeul and her players and we hope the funding provided will assist their preparations ahead of their opening group match against England in Utrecht on the 19th of July. We wish them well.

Our containerised changing room projects are now all over Scotland including the outer isles. More importantly we are now getting them back to re cycle after clubs find permanent long term solutions. We conservatively estimate that this project alone provides facilities to support activity for around 14,000 grassroots players and we look forward to working with 4 new clubs who were awarded changing rooms this year.

It has been another busy period for our Trust as we complete our third year of operation. I would like to thank all of the charitable organisations who have provided funds to support our work this year as we continue to assist the non-professional end of the game. A special mention goes to the Kilpatrick Fraser Charitable Trust who backed our pilot FooTea project in Cumbernauld and Kilwinning. This football based health and wellbeing project proved to be a very popular and we hope to expand on this work on a much bigger scale across the country. In the coming weeks we will be announcing some recently secured funding to enable us to do so. Watch this space.

We are a small organisation but work very hard to deliver for football, no more so than Stuart and Laura who’s energy and enthusiasm keeps a very able board from becoming stuffy and boring.

As chairman I am lucky to enjoy such support and would sooner the clubs tell our story as this edition of Keepie Uppie will show. Please remember if your idea is good for football at any level, we will listen.

James Clydesdale, Chairman
The Scottish Football Partnership
Scottish Football Partnership was delighted to be able to assist the women’s national squad in their preparations for this summer’s Euro 2017 Finals in the Netherlands. What a fantastic achievement for the players to qualify for these Finals and we hope our funding support will enhance Anna and her squad’s ability to progress far in the tournament. We wish them every success.

As well as the support from the SFP, funding from sportscotland, through its National Lottery stream as well as from SSE will enable those home-based international players in full-time employment or education to focus solely on their preparations for this summer’s tournament. The ground-breaking move for football has been met with the support of those players’ employers and educational establishments. The scheme is now underway and will continue until after the end of Scotland’s first-ever campaign in the European Championship finals.

More than half of the squad have benefitted from the funding package including Joelle Murray, Leanne Ross, Fiona Brown, Megan Cunningham, Nicola Docherty, Gemma Fay, Lucy Graham, Hayley Lauder, Leanne Crichton and Jo Love and the SFP have also assisted Lizzie Arnot, Frankie Brown, Hayley Lauder, Eilish McCorley, Zoe Ness, Krsty Smith, Rachel McLauchlin and Lee Alexander.

Anna Signeul said:

“It’s fantastic that The Scottish Football Partnership, sportscotland and SSE have come together to support the players in being the best they can be ahead of their first ever European Championships.”

“It’s a strong statement from all three parties that they care about the women’s game in Scotland and are willing to help the players improve. We feel we have support from everyone and that will help us going into the Euros. To have our best domestic players on the same playing field as their teammates who are full-time professionals is really important. It offers equal opportunity and will stand us in good stead ahead of July.”

Supporting 3G pitches

Since 2012, The Scottish Football Partnership and SFP Trust have supported 29 3G pitch projects across all levels of the game in Scotland, ranging from full size installations to training size pitches as well as full-size and training-size surface replacements.

Our total investment in these projects has reached £802,500 with the total project value in association with other partners, agencies and the clubs involved amounting to circa £6,808,500.

STRATHAVEN DYNAMO AFC

New 3G Pitch for Strathaven Dynamo A.F.C. at Whiteshawgate

Strathaven Dynamo A.F.C. has a new full-size, floodlit, all-weather 3G multi-sports Pitch at Whiteshawgate which was officially opened on Friday, 24th March, 2017 by Aileen Campbell, MSP, the Minister for Public Health and Sport. The Scottish Football Partnership was keen to help this ambitious club realise its dreams of having a high quality facility for the local community and were delighted to assist with an award.

Run by W3ST Whiteshawgate 3G Sports Trust, a partnership between Strathaven Dynamo A.F.C. and Strathaven Rugby Club – the new facility cost £670,000 and was completed in just five months by Malcolm Sports Surfaces. Cashback for Communities, The Robertson Trust as well as The Molti Trust have been the main backers for the state-of-the-art project and an appeal by W3ST – launched just over a year ago – saw the entire Strathaven community unite to help raise £100,000 to reach the final target.

Frank McGraw, Chairman of Strathaven Dynamo A.F.C., said:

“What a sight it was to see so many Dynamo teams training on the pitch for the first time. It was great to see the smiles on the faces of all the girls and boys. It really has been all worthwhile just to see that. This has been a pipedream for the football club for many years and we are looking forward to growing our club even more and forming a strong partnership with our rugby cousins for years to come. This facility is a great asset for both clubs and indeed for the Strathaven community.”

At the official opening, Aileen Campbell was enthusiastic in her praise for the project which has been a long-term aim for Strathaven for several years and commented.

“Providing facilities like this not only helps to tackle inequalities but also encourages increased physical activity for people within that community by extending the recreational options open to them. I hope that this pitch will increase participation and bring positive outcomes to Strathaven and the surrounding villages.”

Cammy Watt, Scottish FA Facilities Manager, said:

“I am delighted to see this latest CashBack for Pitches project reach completion after what has been a long and sometimes challenging journey. This new 3G pitch is a further fantastic example of football and rugby working in partnership and I’m sure the facility will act as a catalyst in driving even greater levels of participation in healthy sports activity for those in and around Strathaven.”

Mid Annandale A.F.C. currently play in the South of Scotland League and were fortunate enough to be awarded modular changing rooms from The Scottish Football Partnership (SFP) to complement the existing clubhouse and natural grass and 3G Pitch at King Edward’s Park in Lockerbie. The SFP were greatly impressed with the commitment of this ambitious grassroots club to growing football in the Lockerbie area by creating opportunities for boys and girls alike to participate in the sport.

The Mids currently operate not only their senior team but nine youth teams and also focus on the development of girls football with over 40 girls now playing at the club over two age groups. The increasing number of players joining the club meant that their current changing facility provision was not sufficient to cope with the enhanced playing numbers which have soared to 196, especially as the club were keen to provide somewhere separate and safe for the girls to change.

The club’s long term plan is to construct a new pavilion at the 3G Pitch at King Edward’s Park but these changing rooms will not only benefit the home team but the away clubs visiting the ground. Allan Agnew, Chairman of Mid Annandale A.F.C. said:

“On behalf of everyone associated with the club, I would like to thank The Scottish Football Partnership for making this facility investment to the value of around £40,000 in our club. Our new facilities will not only add to the experience we can provide for our current crop of young players but will also help us grow as a club. This is a good news story for the future development of football in our area and we are delighted with the support received from the SFP to make this project a reality”.

David Sheldon, Scottish FA Club Development Manager for the South West region commented.

“The Scottish Football Partnership has been instrumental in supporting worthy clubs in facility and developmental Projects. Mid Annandale A.F.C. continue to provide great opportunities for the local community and with the facilities improving we hope this will attract more people to the club, resulting in Football for Life for the locals.”

SFP’S PORTABLE CHANGING ROOM PROJECTS –

Supporting activity for 14,000 grassroots players

Our portable changing room’s project continues to be one of our most successful initiatives and this year we’ve invested a further £160,000 in new projects.

We currently own £1.4m worth of modular changing and storage facilities which are deployed across 60 sites supporting activity for around 14,000 grassroots players. This is a truly pan-Scottish initiative with units located from as far south as the Scottish borders all the way to the island of Whalsay off Shetland.

In 2016/17, we awarded portable changing rooms to 4 new clubs – Back F.C., Formartine United F.C., Threave Rovers F.C. and Houston United F.C.

CASE STUDY

Mid Annandale A.F.C. was instrumental in supporting worthy clubs in facility and developmental Projects.

Mid Annandale A.F.C. has a new full-size, floodlit, all-weather 3G multi-sports Pitch at Whiteshawgate which was officially opened on Friday, 24th March, 2017 by Aileen Campbell, MSP, the Minister for Public Health and Sport. The SFP Trust were fortunate to be awarded funding from the Crerar Hotels Trust to assist seven community clubs in the North of Scotland by providing them with one set of fun four portable goalposts.

These goals will provide a fantastic focal point for the children involved, some of whom are as young as four years old in their training sessions and weekend matchplay.

Five clubs – Mearns Youth F.C., West End F.C., Buckie Thistle Football Development, Kintore United F.C. and Strathspey Thistle Youth Development – have already received their goals and were grateful for this much-needed equipment.

Paddy Crerar, Chairman of the Crerar Hotels Trust and Chief Executive of Crerar Hotels commented:

“We are delighted to have made this award to The SFP Trust and look forward to hearing how this funding impacts their work. Crerar Hotels is committed to giving back to the local community to help it grow and thrive and provide opportunities that may otherwise seem out of reach. For every stay our customers have with us they are supporting others who really need it. It is great for our folk in the hotels to see their hard work and efforts helping people in their own communities as well as those from throughout the whole of Scotland and Yorkshire.”

Stuart McCaffrey, Chief Operating Officer of the SFP Trust added:

“We are most grateful to the Crerar Hotels Trustees for this kind donation. Awarding such equipment removes the burden on community clubs to continually fundraise and allows these youngsters to take part in organised training evenings in a safe and fun environment, where they will be taught not only football skills but the benefits that regular exercise can bring.”

Mhairi Robertson from Buckie Thistle Football Development, we would like to thank The SFP Trust and Crerar Hotels for their support.”

Steven Robertson from Mearns Youth F.C. commented:

“As the club continues on its development journey, the support of the SFP Trust and Crerar Hotels is invaluable to ourselves at grassroots level, with the donation of 4v4 samba goals allowing us to improve, enhance and develop the overall player experience across each and every one of our age groups, whilst also encouraging their love and passion for the game through mini-games and associated skills training. Without such support, it would obviously take the club longer to achieve its aspirations, and we are extremely grateful to everyone at the SFP Trust and Crerar Hotels for their support and kind generosity.”

West End F.C. Secretary David Duncan added:

“As you can see the lads have had a great time at training this evening. This is their first season and the players have only been working together since January. Our new goals will allow us to train anywhere when the weather gets better and allow our young players to practise into the goals they will be using when they start taking part in football festivals in the season ahead. We very much appreciate the award from The Scottish Football Partnership Trust in conjunction with Crerar Hotels Trust. This type of support is vital to grassroots clubs like ourselves as it allows us to continue to start new age groups and reduces the financial burden on the club and its coaches, players and parents”.

Mhairi Robertson from Buckie Thistle Football Development, we would like to thank The SFP Trust and Crerar Hotels for their support.”

GET FIT, GET HEALTHY... HAVE FUN!

Block 1 of The SFP Trust’s FooTea Project involving 40 schoolchildren has now been completed at Kilwinning Sports Club in North Ayrshire and at Cumbernauld Colts F.C. in North Lanarkshire.

For two hours each Friday afternoon, 40 local kids from a selection of primary schools in the areas of Kilwinning and Cumbernauld have been participating in the 12-week community project. Through a fun and progressive structure, the programme has offered the youngsters a chance to enjoy and participate in an hour of fun football-based activity, followed by an hour of education around leading a healthier lifestyle through diet and nutrition. The children all have their own 30 page glossy workbook which covers topics such as the importance of water and hydration, the need for daily exercise, how to be sugar and salt smart, the Eatwell Guide, good and bad fats, energy sources and the dangers of too much processed food. The children are then all served a hot, tasty and nutritious meal whilst enjoying some social time together.

During the football hour, the coaches spend time with the kids to encourage their football agility and concentrate on techniques including dribbling, shooting and defending whilst emphasising the importance of teamwork, building relationships, respect for themselves and others to help empower the young people to be confident individuals.

WE ARE DELIGHTED TO HAVE ACHIEVED THE FOLLOWING OUTCOMES FROM BLOCK 1:

- 24 hours of football activity given to the children
- 24 hours of health education delivered to the children
- 401 healthy meals served to the children and their family members
- 1,164 glasses of water consumed by the children
- Improved knowledge around the benefits of good diet and nutrition
- Reduction in consumption of sugary drinks
- Enjoyment of physical activity and recognition of the positive benefits of regular exercise
- Engagement in teamwork and acknowledging respect for others
- Positive sense of wellbeing and increased confidence levels
- Building relationships between the children and the family-based community club, leading to a pathway of continued participation in football.
- Maximising the social impact on the wider family unit and encouragement of family mealtimes
- Encouraging the children to participate in football rather than the screen culture
- Reduction in poor classroom behaviours and attitudes as reported by Headteachers

...AND WE LOOK FORWARD TO WELCOMING ANOTHER 40 SCHOOLCHILDREN TO BLOCK 2 OF FOOTEA VERY SOON!
1. Carnoustie Panmure FC (SCIO).

New 3G surface at Pitskelly Park

The Scottish Football Partnership Trust was delighted to be able to make an award of £20,000 to Carnoustie Panmure Football Club (SCIO) to assist with the installation of a replacement 3G surface at Pitskelly Park.

The project, which was completed at the end of March, 2017, was the culmination of a lengthy process which saw four local football teams – Monifieth Ladies FC, Carnoustie Panmure FC, Carnoustie Amateur FC and Carnoustie YM – coming together to try and encourage the local Council to increase and improve the provision of football facilities and participation in the local area. With the support of Angus Council, negotiations eventually saw the group establish themselves as a charity known as Carnoustie Panmure FC (SCIO) to allow them as an organisation to apply for a Community Asset Transfer of the site at Pitskelly Park which included a full-size natural grass pitch, a badly worn 2G training pitch and a Clubhouse. Such was their dedication to ensuring that the project was operated to the best standards possible, that the SCIO was awarded the Legacy Award under the Scottish FA’s Quality Mark scheme.

It took three years for the Community Asset Transfer to go ahead and this was against the background of years of fundraising and hard work to make the project a reality.

Enormous recognition must go to all the club volunteers and supporters of the project who gave of their time and money to raise £36,000 as well as the local companies who also donated generously – a tremendous effort by all concerned. The multi-partnership project, which also attracted investment from the Norton Trust and Social Investment Scotland, was finally given the go-ahead in January, 2017.

The new surface, installed by Allsports, hosted its first match on 25th March, 2017: Monifieth Ladies U-11s v Dundee West U-11s and is now used regularly by over 500 players on a weekly basis. In addition to Carnoustie Panmure FC (SCIO), the new and improved facility is well used by other community groups including women’s football, walking football and over-35s football.

The project is a good news story for the area which will benefit the local community for years to come by providing better access to modern facilities and encouraging even greater participation in football for the next generation of youngsters.

2. Maybole F.C.

SFP General Award for Maybole F.C. to assist with the refurbishment of the clubhouse at Ladywell stadium

The SFP was pleased to be able to support Maybole F.C., a junior club based in Ayrshire, with funding to assist in the refurbishment of their Clubhouse following fire damage.

The club had a festive period to forget in 2016 when their home of seventy years, Ladywell Stadium was the victim of two arson attacks within the space of 48 hours. The Clubhouse suffered extensive internal damage following both blazes, with the brunt of the devastation affecting the home dressing room and the Manager’s office as well as the destruction of training equipment and the first team’s match kit.

Club Secretary, Alex Meek said: “For a local Junior club like ours which is run by volunteers, this was a very difficult period for us in witnessing the havoc which the fires caused at our facility and also our team being unable to play home matches at Ladywell. We put out an appeal for help to our local community, council and businesses and the response was fantastic – we are very grateful to everyone who supported us through this difficult time.

The club were also advised by John Brown, Scottish FA South West Regional Manager, to speak to The Scottish Football Partnership to seek funding support to assist with the cost of fully refurbishing our Clubhouse. The grant award from The SFP helped us to gain further momentum in our efforts to put our facility back together and to bring football back to Maybole, which we achieved when we hosted our first match back at Ladywell on 8th April, 2017 against Auchinleck Talbot in the 3rd Round of the West of Scotland Cup.”
Speaking on the project, John Buchanan, Chairman commented:

“We are delighted that our dream is now a reality. This new facility means more people can take part in football’s fun, fitness and friendship opportunities! We’re pleased that the value of the services and activities we deliver have been recognised and we’re working hard to make this a fantastic community facility we can all be proud of.”

Brian Gibson, Secretary of Glenrothes Strollers added:

“This has been an incredible journey for our club – from its formation in 1973 we have now grown into one of the largest grassroots clubs in Scotland. We offer football to both boys and girls from 4 years old to adult, including our very successful Pan-Disability section. With the support of our partners at Shared Care Scotland we have created fun football opportunities at clubs all over the East of Scotland for children and young people with a range of disabilities and additional support needs. This facility will now let us grow further and we have ambitious plans for further improvement."

The Pavilion Glenrothes is a brand new café that has opened up within The Strollers Community Clubhouse (pictured above) and is open 7 days-a-week and provides a relaxed atmosphere. The pavilion building has six changing rooms incorporating showers, toilets, two referees’ rooms and much needed storage. A club room for parents and visitors will also help to encourage people to take part in wider club activities.
